## Professional Summary

Entry-level Cybersecurity Analyst with MCA (Cybersecurity). Skilled in IAM, SOC operations, threat detection, penetration testing, and vulnerability assessment. Hands-on experience with Wireshark, Nmap, Splunk, Burp Suite, ELK Stack, and Metasploit. Passionate about securing systems and mitigating cyber threats.

## Projects

### 1. Tata Cybersecurity Security Analyst Job Simulation on Forage - September 2025

- Simulated IAM workflows, applied cybersecurity best practices, and aligned security with business goals.
- Developed documentation and presentations demonstrating technical and analytical skills.

### 2. SOC Log Monitoring & Threat Detection System - April 2025

- Built a SOC system to monitor logs and detect anomalies using Wireshark, Splunk, ELK Stack, and Nmap.
- Implemented alerts and dashboards to identify brute-force attacks, malware, and unauthorized access in real-time.

### 3. Web Application Penetration Testing - August 2025

- Conducted penetration testing on DVWA; identified SQL Injection, XSS, and other vulnerabilities.
- Used Nmap, Burp Suite, and SQLmap; documented risk levels and remediation steps.

## Certificates

- Tata Cybersecurity Analyst, Forage
- Certified Blockchain Security Examiner
- Cisco – Introduction to Cybersecurity
- Python
- Java
- SQL Certification – Simplilearn

## Technical Skills

- Cybersecurity Tools: Wireshark, Nmap, Splunk, Burp Suite, ELK Stack, Nessus, Metasploit.
- Security Skills: Threat Detection, Incident Response, Vulnerability Assessment, Penetration Testing.
- Programming & Scripting: Python, Java, C, Shell Scripting.
- Core Skills: Data Structures & Algorithms, Network Security, Secure Coding Practices.

## Education

Amrita Vishwa Vidyapeetham	MCA (Specialization: Cybersecurity)
2023–2025 CGPA: 7.41	Mysore, Karnataka
NIE First Grade College	B.Sc (Computer Science)
2019–2022 CGPA: 6.74	Mysore, Karnataka
