SUMMARY

Entry-level Cybersecurity Analyst skilled in SOC Operations, Threat Detection, Incident Response, and Vulnerability Assessment. Hands-on experience with SIEM tools (Splunk, ELK), Wireshark, Nmap, and Burp Suite. Strong in log analysis, network security, and real-time threat detection.

EDUCATION

Amrita Vishwa Vidyapeetham, Mysore Campus Mysore, Karnataka
MCA (Specialization: Cybersecurity) CGPA: 7.41 **2023–2025**
NIE First Grade College Mysore, Karnataka
B.Sc (Computer Science) CGPA: 6.74 **2019–2022**

SKILLS

- **Security:** SOC Monitoring, SIEM, Threat Detection, Incident Response, VAPT, Log Analysis, IAM
- **Security Tools**: Splunk, ELK Stack, Wireshark, Nmap, Burp Suite, Metasploit, Nessus
- **Programming & Scripting**: Python, Shell Scripting, Java, SQL
- **Networking & Protocols**: TCP/IP, DNS, HTTP/HTTPS, Packet Analysis
- **Other Skills**: Secure Coding, Risk Assessment, Security Auditing, Alert Triage

PROJECTS

SOC Log Monitoring & Threat Detection System | https://github.com/Raju84311/SOC-Log-Monitoring
Tools: Splunk, ELK Stack, Wireshark, Nmap

- Built a SOC system for real-time log monitoring, anomaly detection, and SIEM-based alerting
- Detected and analyzed brute-force attacks, malware activity, and unauthorized access
- Performed packet analysis (Wireshark), network scanning (Nmap), and created dashboards for threat visualization

Web Application Penetration Testing (DVWA) | https://github.com/Raju84311/web-app-penetration-testing-dvwa
Tools: Splunk, ELK Stack, Wireshark, Nmap

- Performed web app security testing using manual and automated tools
- Identified SQL Injection and XSS vulnerabilities
- Documented risks and remediation steps

CERTIFICATES

- Tata Cybersecurity Analyst – Forage
- Cisco – Introduction to Cybersecurity
- Certified Blockchain Security Examiner
- SQL Certification – Simplilearn
